Online application (U.S. only) Community Grants

Status: Processed

[Form help](#)

Use this tool to process Community Grants that support your volunteer activities. Before you begin processing a request, read all the [eligibility requirements](#) for the requester and grant recipient.

If you have questions at any time during this process, contact the [grant administrator](#).

Required fields are marked with an asterisk (*) and must be filled in to complete the form.

Employee data

Confirm the employee data below from IBM BluePages. If the information is incorrect log off this application and update your employee information in BluePages. You will be able to submit a grant request once your employee data has been updated.

Confirmation #:	108745
Employee:	Aylesworth, John JR
E-mail address:	jayleswo@us.ibm.com
Serial number:	[REDACTED]
Notes address:	John R Aylesworth/Cupertino/IBM@IBMUS
Type:	Employee
Division:	12
Tieline:	577-4408
External phone number:	916-641-4408

Organization data

This section lists nonprofit organizations that may have received grants from IBM in the past.

Before you begin to process your request on-line, you must valid the nonprofit status of your charity and ensure they are in compliance with IBM Non-Discrimination/Patriot Act policies.

- To validate the nonprofit status, obtain a copy of the 501(c)(3) IRS determination letter from your charitable organization. (Public schools and universities do not have a 501(c)(3), and therefore exempt from this requirement. **HOWEVER, Charter Schools, are required to provide a copy of their 501(c)(3) tax determination letter, even though they have some affiliation with a public school district.**)

- To ensure nonprofits are in compliance with IBM Non-Discrimination/Patriot Act policies, they must affirm their compliance in writing. Send a copy of the [Non-Discrimination/Patriot Act form](#) to your charitable organization and have the Executive Director, President or CFO complete the document in its entirety, sign it, and then return the original document to you for review.

Once you receive both the 501(c)(3) IRS determination letter and the signed Non-Discrimination/Patriot Act form, send both documents to the [grant administrator](#) in your region, who will get your charity valid on-line, and recorded on the list of eligible grant recipients. Please allow up to 3 days for the grant administrator to review, validate and update the system with your nonprofit information. It is important to know that incomplete or unacceptable documentation could delay the process. Note: While documentation is not required for public schools, universities or colleges, you are still required to provide the [grant administrator](#) with the name and address of the school or university to get it recorded as a valid grant recipient.

To process a community grant on-line, find out if your organization is listed, by clicking on the organization search button. Select the state in which the organization resides, and type one key word from the organization's name and press GO to start the search. Select your organization from the search results. Review the address to ensure it is accurate. **If the address is incorrect, exit the application tool, and then provide the grant administrator with the correct address.** You will be required to provide the administrator with documentation to validate the new address. Once the address has been updated on-line, you may process your request. Similarly, if your charitable organization is not listed, please exit the tool, and resend the required documentation (ie, 501(c)(3) and Non-Discrimination/Patriot form) to the [grant administrator](#).

* Organization name: Civil Air Patrol Sacramento Composite Squadron
 * Address:
 * City:
 * State:
 * Zip code:
 * Organization contact person: John Aylesworth
 * Telephone: 916-359-4588
 Fax:

Tell us about the nonprofit organization, and the grant project.

- * Describe the mission of the nonprofit organization. (30 lines max.):

The mission of Sacramento Composite Squadron 14 is to conduct Emergency Services, Disaster Relief and Homeland Security missions in Northern California and to serve our local community with a robust cadet program for youths to develop leadership skills and aerospace knowledge. Our Cadet Program provides a structured program to introduce youths to aerospace and leadership in a disciplined military setting focused on achievement. Our operational capabilities include well-trained aircrews who can conduct missions using CAP and member-provided aircraft for search and locate missions as well as photo-reconnaissance missions using our SDIS (Satellite Digital Imagery System) equipment to transmit images near real-time to our customers.

Volunteer information

*Is this an individual grant **Individual** or team award?

*Have you tracked your hours on **Yes** the On Demand Community site?

*Describe your volunteer activity. Include significant tasks, positions held, dates, etc. (30 lines max.):
Squadron Commander Aug 2006-present: Since assuming the position of Commander for Squadron 14, I have led the organization through a period of sustained growth in membership and capabilities. This included a recruiting drive where we reached out to the community to raise visibility on our missions and youth (cadet) program. I presented our program to the local JR AFROTC program and the California Aerospace Academy and participated in several airshows. The fundraising activity I led included a pancake breakfast during the Airport Open house at the airport where we meet. On the operational side, I participated in several search & rescue missions (including the one last fall for missing adventurer Steve Fossett) and border patrol missions. I plan and lead our weekly membership meetings which focuses on providing information to our members and training.

*Did you use an On Demand **No** Community solution with this organization?

Type of grant

*Describe the grant project and goals. (30 lines max.):
Technology Support, Training and Curriculum Development:

This goal of this project is to enhance the use of technology in the development and delivery of multi-media education and training to members of this unit. Starting in January 2008 and by the end of the calendar year, the goal is to procure, develop and implement the following:

1. Procure a multi-media LCD projector (1024x768):
2. Plan and prepare a training schedule, develop curriculum and deliverables including PowerPoint presentations, handouts and work materials covering the following topics:
 - a. Cadet and Adult Aerospace Education

- b. Cadet Leadership Training
- c. Operational Mission Training:
 - * Mission Aircrew (Scanner, Observer and Pilot)
 - * Mission Base Staff
 - * Urban Direction Finding
 - * Radio Communications
 - * Mission Tools & Software (IMU2)
- d. Safety Topics

The completion of this project will enhance the value of the training delivered to our members. This will improve the value of our programs and allow us to more effectively and safely execute on our organization's missions.

*Select the type of grant: **Cash**

*Enter cash amount: \$1000.00

*Include an itemized list of the expenses the grant will cover. (30 lines max.):

Powerpoint LCD projector: \$800

Handouts/copies of training: \$200

Requester certification

By completing the Community Grants form, you certify that you have read the Community Grants documentation and understand that if this online application contains false, deceptive or misleading information, you may be subject to loss of eligibility under the program or disciplinary action which could include dismissal.

* **Applicant certified.**

* If the grant is approved, may IBM publicize it? **Yes**
